To: Residency Applicants:

The Erdey Searcy Eye Group, in conjunction with **The Ohio State University College of Optometry**, is pleased to present a one-year Residency in Ocular Disease at our state-of-the-art practice in Columbus, Ohio.

Residency Mission Statement

The mission of the Residency in Ocular Disease at the Erdey Searcy Eye Group is to provide a unique post-doctoral experience, both clinical and didactic, in ocular disease diagnosis and treatment to an exceptional optometric graduate. Graduates of this residency are trained to deliver superlative clinical care, to serve as educators in optometric institutions and within the community at large, and are able to pursue professional opportunities requiring a high level of clinical expertise.

Residency Goals

- To improve the resident's clinical knowledge in primary eye care, as well as the diagnosis and management of anterior segment and posterior segment disorders, and ocular manifestations of systemic disease.
- To develop and enhance the resident's advanced diagnostic skills through the use of gonioscopy, funduscopy, automated perimetry, ocular photography, corneal topography, corneal pachymetry, ultrasonography, ocular coherence tomography, and other diagnostic instrumentation.
- To enhance the resident's knowledge of advanced eye care procedures, ocular surgical procedures, and the care of pre- and post-operative patients.
- To develop and improve the resident's scholarly activity skills, including those required for lecturing and publication.
- To provide the resident with the necessary academic knowledge and clinical skills to pursue a career within academia, clinical education, or patient care.

Residency Length

The length of the residency is 54 weeks, beginning on the first Monday in July and ending after 54 weeks on a Friday.

Residency Stipend

Currently \$33,000. Additionally, 2 weeks of vacation is provided, along with health and malpractice insurance.

The Residency in Ocular Disease at the Erdey Searcy Eye Group is fully accredited through The Ohio State University of Optometry and is currently seeking accreditation through the Accreditation Council on Optometric Education (ACOE) for the 2012-2013 residency year. We participate in residency matching with the Optometric Residency Matching Service (ORMS).
